

Department of Artificial Intelligence and Machine Learning

Report on Deep Dive into Deep Learning

Title of the Program
Skill Development Program: Deep Dive into Deep Learning
Venue
Department of AI & ML Digital Classroom, BGSCET, Bengaluru
Date & Time
6 th & 7 th November 2025, 9:00 AM – 4:00 PM
Participants (attach attendance sheet)
Faculty- Dr. Jalaja G (HOD, AI & ML), Department Faculty Members Students- 69 (7 th Semester Students, AI & ML Department)
Resource Person
Mrs. Roopa Mahadev (CEO, Accurate Info Solution) Mr. Shreyanth H G (Software Engineer, Accurate Info Solution)
Convenor/ Coordinators
Dr. Jalaja G Ms. Nishitha N Murthy
Session Details
<p>The Department of Artificial Intelligence and Machine Learning organized a skill development program on “<i>Deep Learning</i>”</p> <p>The session focused on the theoretical and practical aspects of deep learning within data analytics. Students explored core concepts such as artificial neural networks, back-propagation, and gradient descent. The importance of activation functions, optimization algorithms, and loss functions was emphasized. Convolutional and recurrent neural network architectures were discussed for handling image and sequential data. Hands-on demonstrations using TensorFlow and Keras enhanced understanding of model design and training. Overall, the session highlighted how deep learning enables complex pattern recognition and intelligent automation.</p>
Outcome/ Takeaway
<ul style="list-style-type: none">The session deepened understanding of neural network structures and learning mechanisms.Students gained practical experience in building and training deep learning models.Concepts like back-propagation, activation functions, and optimization were effectively applied.

Hands-on work with TensorFlow and Keras improved technical implementation skills.

- Learners understood how deep learning supports automation and advanced data analysis.
- Overall, the session bridged theoretical knowledge with real-world artificial intelligence applications.
