“AI TECHNIQUE AND IMPLEMENTATION USING PYTHON”

Title of the program	“AI Technique and implementation using Python”
Venue	AI&DS Digital Room
Date	21th & 22 nd April 2026
Resource Person	Mr. Vijay Shanthagiri
Coordinator Details	Prof. Ashwini R
Head of Department	Dr Parvathi C
Importance of the Session	<p>The session conducted by Mr. Vijay Shanthagiri, Founder & CEO of Analogica Software Development Pvt. Ltd, was highly insightful and impactful for students. It focused on the practical implementation of Artificial Intelligence using Python, helping bridge the gap between theoretical knowledge and real-world applications.</p> <p>He explained key AI concepts such as machine learning basics, data handling, and model development using simple and relatable examples. The hands-on approach and real-time demonstrations made it easier for students to grasp complex topics.</p> <p>Overall, the session inspired students to explore AI further and understand its importance in modern technology and future career opportunities.</p>
Outcome/Takeaway	<p>The session enabled students to gain practical knowledge of implementing AI techniques using Python. Participants learned how to approach problem-solving using AI concepts and gained exposure to real-world applications.</p> <p>The session improved their logical thinking and analytical skills, encouraging them to apply AI concepts in mini-projects and academic work.</p> <p>It also boosted their confidence in working with Python for AI development and motivated them to explore advanced topics in artificial intelligence and data science. Overall, the session provided valuable insights into industry practices and helped build a strong foundation for future learning and career growth in AI.</p>
